

### Introducing Dr. Indira Misra-Higgins

The ARTISTRY® brand is privileged to partner with renowned dermatologist, Dr. Indira Misra-Higgins. Honored nationally and recognized globally, Dr. Misra-Higgins is a strong advocate for skin health and non-invasive skin care solutions. She is passionate about skin care and dedicated to skin research, education, and treatment.

Here are a few of her many accomplishments:

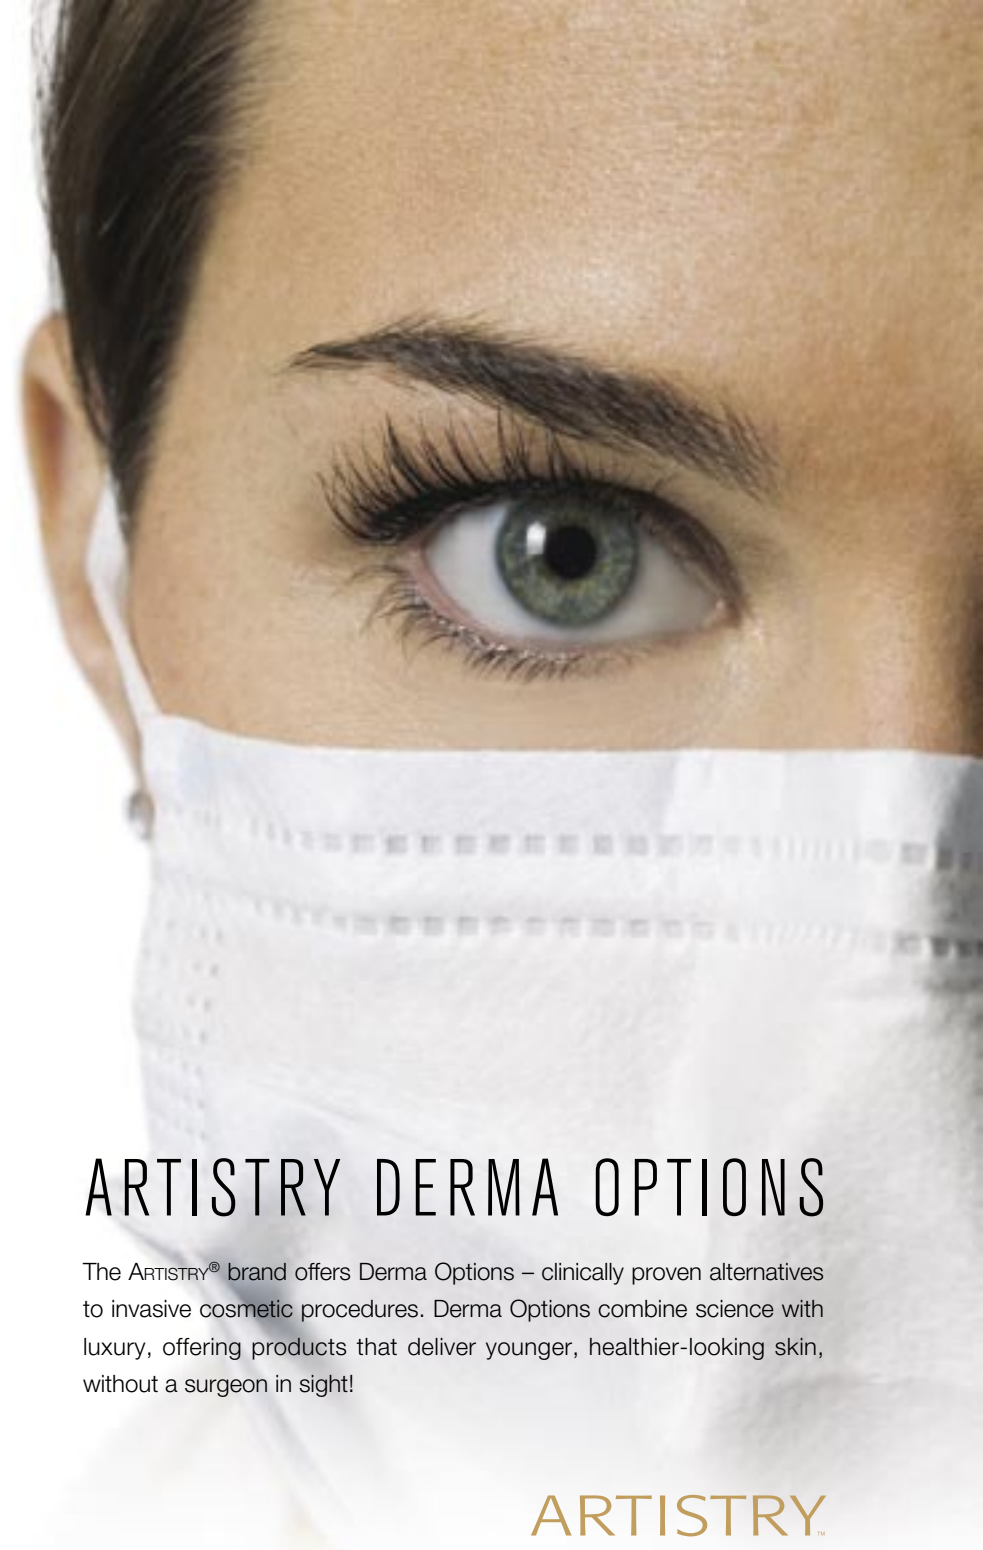

- ◆ Dermatologist and Diplomat, American Academy of Dermatology
- ◆ Fellow member of of:
  - American Osteopathic Association
  - American Medical Association
  - American Academy of Dermatology
  - Michigan Association of Osteopathic Physicians & Surgeons
  - Sigma-Sigma-Phi – National Honor Medical Society

### The Partnership

The ARTISTRY brand is dedicated to offering innovative skin care solutions that provide non-invasive, age-defying alternatives to popular dermatological and plastic surgery procedures. As the ARTISTRY Expert Dermatologist, Dr. Misra-Higgins shares the goal of offering skin care solutions that give women, of every age, the opportunity to look their best.

*“Everyone deserves the option of effective dermatological skin care at home. That’s exactly what ARTISTRY skin care offers. I feel extremely privileged to be working in partnership with such a prestigious brand.”*

– Dr. Indira Misra-Higgins

## ARTISTRY DERMA OPTIONS

The ARTISTRY® brand offers Derma Options – clinically proven alternatives to invasive cosmetic procedures. Derma Options combine science with luxury, offering products that deliver younger, healthier-looking skin, without a surgeon in sight!

ARTISTRY™

ARTISTRY™

**The at-home alternative to line-relaxing injections:**

**ARTISTRY® TIME DEFIANCE®  
Derma Erase (10-2050)**

***Injection-free. Bo-toxin-free. Line-free.\****

Did you know that popular line-relaxing injections use botulism toxins to paralyze the muscles that cause expression lines? Now you can say no to needles with a non-invasive approach to younger-looking skin.

Derma Erase is the first product from ARTISTRY skin care that is clinically proven to reduce the appearance of expression lines. It combines a patented peptide, derma-smoothing ingredients, and a light-diffusing complex to relax and soften the appearance of expression lines for dramatically younger-looking skin. For information from the ARTISTRY Expert Dermatologist on Derma Erase, visit the Derma Erase product page on Quixtar.com

\*Botulism toxin-free.

**The at-home alternative to injectable fillers:**

**ARTISTRY TIME DEFIANCE Vitamin C +  
Wild Yam Treatment (E-7313)**

***Pure wrinkle-fighting technology.***

Injectable fillers, like collagen, hyaluronic acid, and fat, are injected beneath the skin to fill and plump out wrinkles. ARTISTRY TIME DEFIANCE Vitamin C + Wild Yam Treatment offers a non-invasive approach to reducing the appearance of wrinkles. Using pure pharmaceutical-grade, nature-identical vitamin C instead of a needle, it's clinically proven to reduce the appearance of wrinkles by 58% when applied to the face. And it's the only vitamin C and wild yam product on the market that allows you to control when the vitamin C is activated. The result? The ultimate in potency, effectiveness, and wrinkle-fighting power. So say so long to the appearance of wrinkles and hello to younger-looking skin.

For an easy way to clearly demonstrate the wrinkle-fighting power of vitamin C, check out the Apple Demonstration found on the Vitamin C + Wild Yam Treatment product page on Quixtar.com.

**The at-home alternative to microdermabrasion:**

**ARTISTRY® Polishing Scrub & ARTISTRY Skin  
Refinishing Lotion (10-0196 & 10-0240)**

***Softer, smoother skin instantly.***

There is a reason microdermabrasion treatments originated in the dermatologist's office. The jagged aluminum crystals it requires can cause microscopic tears in tender skin, if improperly performed. ARTISTRY skin care believes in powerful but gentle beauty. That's why these indulgent, effective products have been developed. The ARTISTRY Polishing Scrub uses spherical beads to gently, yet effectively, polish away dead skin cells without damaging the skin. And the ARTISTRY Skin Refinishing Lotion accelerates the skin's natural exfoliation process to reveal instantly smoother skin and a youthful, radiant glow.

For an at-home alternative to microdermabrasion, use the ARTISTRY Polishing Scrub without water. Gently massage it over the skin in a circular motion for one to two minutes using your pointer and middle fingers. Next, rinse, pat skin dry, and apply ARTISTRY Skin Refinishing Lotion followed by your favorite ARTISTRY moisturizer.

**The at-home alternative to chemical peels:**

**ARTISTRY TIME DEFIANCE® Intensive  
Repair Serum (10-0282)**

***Reverse the signs of aging in just 14 nights.***

While chemical peels use a harsh chemical solution to peel away the skin's top layers, ARTISTRY skin care offers powerful results without chemicals, risk, or irritation. ARTISTRY TIME DEFIANCE Intensive Repair Serum is a revolutionary, 14-night treatment that offers some of the most advanced age-defying technology available to reverse the visible signs of aging. Clinically proven with a patent-pending formula, Intensive Repair Serum boasts 261% improvement in skin clarity, 99% reduction in the appearance of lines, and 83% improvement in skin smoothness, after just 14 nights. With Intensive Repair Serum, you don't need to make an appointment to get dramatically younger-looking skin.
